

DOWN BUT NOT OUT

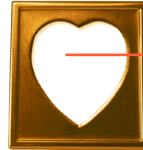

So you bought the extended warranty. But what if it's you who's out for the count?

That's where critical illness cover comes in. It can help soften the blow by paying out if you get an illness you're insured against and meet the definition.* So you won't have to worry about how to pay the bills. And it might be cheaper than you think.

£14.99

is the monthly cost of cover on three household appliances.¹

£13.84

would buy a 35-year-old £35,000 of critical illness cover.²

Now which would you rather have?

*Not all insurers cover the same illnesses, and definitions for illnesses may vary.
